Not up for too much action? Walk through the Alpine village charm and the local Christmas decorations. Set off on a guided village walking tour in English so that you can see the older parts of the village that show off traditional timber houses over 500 years

DINING

Eating, drinking, celebrating - the culinary offer is an essential part of the CERVO feeling. Our bars and restaurants cover a wide range of culinary styles, whether in the evening or for lunch. They remain true to one principle: cordial service and the joy of interaction between guests and visitors.

In the evening there is something special to discover: An discreet door leads into the cellar’s arched vaults, where the hidden Grapes & Juniper Bar is hidden. They who search will find.

The Madre Nostra presents itself as an elegant alpine ambience and celebrates Italian cuisine – in all its deliciousness, contemporary and refined. The ingredients for pasta, grilled food and trimmings come directly from the region, and the interior is based on alpine chic. A highlight among the Italian restaurants in Zermatt.

Occassions

The Matterhorn is said to have a magical aura. So it can’t hurt to welcome this unique mountain as a guest of honor at an event. No matter if private or business. The CERVO restaurants, bars and lodges can be rented in flexible combinations. An extraordinary backdrop that gives every occasion the special setting it deserves.
